Unit training and leader development are the Army’s life-blood. (ADP 7-0)

Training is a critical factor in ensuring ready decisive land forces today and shaping readiness to meet emerging requirements in the future. Developing leaders in the Chaplain Corps for the future through training is essential to the religious and moral health of the Army Family.

The U.S. Army Chaplain Corps has developed a series of doctrinal publications and supplementary digital references to support training chaplains and chaplain assistants for the future. The Chaplain Corps must be ready, trained and continually learning to better perform its mission.
